"Time to say Good bye" these are always the last words on the end of my vacations! After this time when I stayed at home I felt that I have to go away for a longer Time! So I decide to do a Trip round the world - to meet people, learn and enjoy the culture and the nature.

Now I start this Trip (1 Year) with my Boy-Friend David and hope to see and enjoy all these things I dreamed before.

The story starts in 2002. I got the chance to do an internship as part of my studies in Auckland, New Zealand. It was one of the best times in my life: working, travelling, meeting people from all over the world,...

In 2005 I did my first real backpacker-trip: island-hopping in Greece (Cyclades). Many people I met were on a round the world trip at that time or had done one before. And so I got strengthened in my idea to do such trip as well.

And now this dream comes true and I will travel around the world together with my girl-friend Daniela for 1 year.

We booked a "Round the World" Ticket and visit following Countries:

Singapore, Australia, New-Zealand, South-Seas, Southamerica, Canada. If it's possible we want to get around by alternative ways like Ferry, Bus or Train. Maybe also hitchhiking.....

It should be exciting.....

We hope to inspire you with this site and are happy to find an entry in our guestbook or e-Mail in our mailbox:
